FIFTY-EIGHTH ANNUAL COAL REPORT

Herewith is presented the Fifty-eighth annual coal report of the coal industry of Illinois together with reports of all other industries which come under the supervision of the Department of Mines and Minerals.

Interest in first aid training and accident prevention work continues high and the Department is pleased to announce special recognition by way of Joseph A. Holmes Safety Association awards to

New Orient Mine, The Chicago, Wilmington & Franklin Coal Co.,
West Frankfort, Illinois.

Mine No. 1, Crescent Mining Co., Peoria County, Illinois.

And certificate of honor for long-time employment in mining without an accident to himself to William Burke, Crescent Mining Co., Peoria, Illinois.

The Department expresses its appreciation of the cooperation given by the United States Bureau of Mines Station, Vincennes, Indiana in the conduct of First aid training and accident prevention campaigns during the year.

SPECIAL NOTICE

From January 1, 1939 to August 1, 1939, the State was divided into **TWELVE INSPECTION DISTRICTS**. Pursuant to amendments to the General Mining Laws passed by the 61st General Assembly and approved July 13, 1939, the State was divided into **FOURTEEN INSPECTION DISTRICTS**. Changes affecting many counties in transferring them from one district to another under the new laws made it impossible to give proper credit to the New Districts and therefore, this book report carries only **TWELVE** Districts as in former years. The annual coal report for 1940 will carry fourteen Inspection Districts.

The above table is a computation of the average man-day production of 55 shaft, slope and drift mines and 23 stripping operations which made special report to the Department of the total man-days of labor of all mine employees. Only the special reports of shipping mines of the above classifications were computed since the special reports of local mines were insufficient in number to warrant their tabulation. In the mines reported the average man-day production in shaft mines was 7.29 tons and in strip mines the average production per man per day was 15.53 tons.

In 1938, 53 shaft, slope and drift mines reporting shows 6.82 tons per man per day and 22 stripping operations shows 15.68 tons per man per day.

REPORT OF STATE INSPECTORS

SPECIAL NOTICE

From January 1, 1939 to August 1, 1939, the State was divided into TWELVE INSPECTION DISTRICTS. Pursuant to amendments to the General Mining Laws enacted by the 61st General Assembly and approved July 13, 1939, the State was divided into FOURTEEN INSPECTION DISTRICTS. Changes affecting many counties in transferring them from one district to another under the new laws made it impossible to give proper credit to the New Districts and therefore, this book report carries only TWELVE Districts as in former years. The annual coal report for 1940 will carry fourteen inspection districts.

FIRST DISTRICT

*Hon. James McSherry, Director,
Department of Mines and Minerals,
Springfield, Illinois.*

SIR: I have the honor of submitting to you the report of this, the First Inspection District, comprising the coal producing counties of Bureau, Grundy, Henry, LaSalle, Livingston, Mercer, Rock Island and Will for the year ending December 31, 1939.

The items shown are summarized in the following general statement which likewise shows the comparative figures for the four previous years.

Respectfully submitted,

STEVE L. FALETTA, *Inspector.*

† Shipped to Central Washing Plant.

‡ 49,898 tons shipped to Central Washing Plant.

310,573 tons used in adding total in this column to avoid duplication of tonnage as noted by † and ‡.
 The tonnage shown by † and ‡ in this footnote was shipped on cars and sold to railroad companies by Central Washing Plant. The difference of 112,746 tons has already been taken into account under heading "Sold to local trade".

ONE HUNDRED PER CENT FIRST AID TRAINING.

During the year 1939, the following companies or organizations completed One Hundred Per Cent First Aid Training campaigns:

Eldorado Township High School.

Granite City Fire Department.

High School, Benton.

High School, Royalton.

High School, Valier.

Marshall Browning Hospital, DuQuoin.

W. P. A. and N. Y. A., Benton.

Union Colliery Co.

BELLEVILLE STATION.

(Condensed from reports.)

February 7—Supervised and assisted work of Mine Rescue Team of Beckemeyer Coal Company while building temporary stopping in 5th S. W. Entry in irrespirable atmosphere and wearing McCaa apparatus.

April 26—Received call at 9:00 A. M., from Vinegar Hill Coal Company that there was a fire in its mine. Arrived at 10:00 A. M., and found fire caused by burning coal in room 2, south entry and with team members wearing Burrell gas masks, succeeded in extinguishing fire at 2 P. M., by digging out burning coal and using water.

July 17—At 12:40 P. M., received call from Vinegar Hill Coal Company to bring team members and rescue apparatus to recover man supposed to be overcome underground. On reaching mine, found that the mine manager, John Gray, was missing and indications were that he had entered the mine by means of the airshaft and had not returned.

The fan was not running and safety lamp was extinguished at top of hoisting shaft indicating presence of CO₂. Team members, J. Buckrod, H. Feldman, C. Stuart and myself wearing McCaa apparatus went down on cage and found Gray lying about ten feet from the shaft bottom, apparently dead. We brought him to the surface where artificial respiration and the inhalator failed to revive him.

October 10—Called to Travis Coal Company mine to help recover and render first aid to man buried by fall of slate.

BENTON STATION.

(Condensed from reports.)

June 2—Received call at 9:30 P. M., to bring H-H Inhalator to Christopher where two boys, Howard McGlasson, aged 18 years and Irwin Downen, aged 19 years had drowned. The bodies were recovered after one hour and ten minutes. I arrived at Christopher at 9:45 P. M., with two Inhalators and started to work at once on the boys using inhalators and artificial respiration, which we continued to give until 11:00 P. M., when Doctors Love and Ruthford pronounced them dead. These doctors assisted in trying to revive them.

June 23—At 2:10 P. M., I received a call to bring Inhalator to Old Ben Mine No. 16 near Sesser as Harry Bellamy, aged 26 years, of West Frankfort had been drowned while he was out in an old boat fishing at 9:00 A. M. His body was not recovered until 1 P. M. I arrived at scene at 2:30 P. M. He had just been pronounced dead by Doctor Hart of Sesser who had tried to revive him by giving him stimulant and artificial respiration from 1 P. M. to 2:30 P. M. I did not use the inhalator.

DuQUOIN STATION.

(Condensed from reports.)

July 21—Received call for inhalator to be used at City Reservoir about 6 P. M. Arthur Cook, a youth of 19, fell from a motor boat whirling at high speed. The body was recovered after about two hours. We worked incessantly for two hours, using inhalator and artificial respiration, even after the doctor pronounced him dead.

HARRISBURG STATION.

(Condensed from reports.)

May 24—Received call at 10:50 A. M., from Wasson Coal Co. We answered call immediately and learned that Jesse T. Cannon had been electrocuted by coming in contact with a live wire. We went to the scene of the accident and worked without success four hours, using inhalator and artificial respiration when he was pronounced dead by Doctor Cummins.

July 24—Received call at 3:15 P. M., from South Harrisburg for inhalator in the case of Mrs. Kate Sweat who had committed suicide by drowning in a pond. We arrived at 3:25 and worked with her for thirty minutes without success when she was pronounced dead by Dr. N. A. Hermann.

August 14—Received call at 8:10 P. M., from Blue Bird Coal Company in the case of Everett Evans who was electrocuted while working with a loading machine. We answered the call immediately, arriving at the scene at 8:30 P. M. Worked with him for thirty minutes using the inhalator and artificial respiration without success when he was pronounced dead by Dr. B. E. Montgomery.

HERRIN STATION.

(Condensed from reports.)

February 23—Mrs. Claude Brown died by her own hands by inhaling gas. Was called to Carterville and used inhalator for one and one-half hours. Two doctors pronounced her dead after that time.

LaSALLE STATION.

(Condensed from reports.)

January 27—Team called to Hill Top Mine for purpose of putting in stoppings to smother a fire. Was successful in smothering fire after about twenty hours.

February 3—Called by Illinois-Iowa Power Company to test for carbon monoxide in apartments over garage. After careful check, found only source of CO was from automobile exhaust at certain times, also from small gas burning water heater which had no outside chimney.

May 21—Received call to assist firemen in an attempt to revive woman overcome with illuminating gas. Patient pronounced dead soon after I responded to call.

May 24—Called to Tohuca. Body reported down abandoned mine shaft. Doubted body being in shaft, however, saw pictures on May 31 showing man's body at bottom. Spent two days trying to hook body to bring it to surface. Received orders on June 8 to recover body. Same recovered 10:30 P. M., June 10.

SPRINGFIELD STATION.

(Condensed from reports.)

January 26—Called to mine fire at Hill Top Coal Company, four miles west of Peoria on R. No. 1. Call received 1:00 P. M. Went under ground 4:30 P. M. Returned to surface 2:00 P. M., January 27th. Erected three seals and was relieved by LaSalle team.

June 1—Call from Panther Creek Coal Company No. 4, Springfield, reporting children heard from in the mine which was closed down. The call was supposed to come from an underground telephone and children's voices were heard. Investigated with three team members. False report.

September 19—Called to mine fire, Bryan Eddy mine, one mile southeast of Cantrall. Superintendent went to mine and assisted employees to put out fire, Cantrall Fire Department furnishing their fire engine.

October 6—Received call, mine fire, Cantrall Mining Company near Cantrall. Advised operator and fire was sealed by employees.
